SUMMARY REPORT
FT 950-E

June 1965

FOR RELEASE
August 12, 1965

EXPORT TRADE BY COUNTRY

The Bureau of the Census, Department of Commerce, announced today that the decrease in U.S. exports of domestic and foreign merchandise, including Special Category commodities, and unadjusted for seasonal variation, from $2,428.3 million in May to $2,335.8 million in June[1] reflected decreases in exports to all areas except Canada. Changes in the dollar values of area totals from May to June were as follows: Western Europe, from $822.2 to $740.3 million; Latin American Republics, from $328.7 to $310.4 million; Canada, from $527.0 to $537.1 million; and "all other countries", from $750.3 to $748.1 million. Exports of Special Category commodities increased from $72.6 million in May to $131.4 million in June.

With Special Category commodities excluded, exports of domestic and foreign merchandise decreased from $2,355.6 million in May to $2,204.5 million in June. Reflected in this change were decreases in exports to the O.E.C.D. countries in Europe, from $762.0 to $652.1 million; Latin American Republics, from $327.6 to $307.6 million; and Soviet-bloc countries in Europe, from $15.0 to $6.9 million, which were partly offset by an increase in exports to Canada, from $517.6 to $531.2 million.

[1]See the June 1965 issue of Report FT 900-E for seasonally adjusted figures on total exports, excluding Military Assistance Program--Grant-Aid shipments. Seasonally adjusted data are not available for total exports including Military Assistance Program--Grant-Aid shipments or by country of destination.

Exports decreased to all continents except North America. Exports to Europe dropped from $806.3 to $675.9 million, resulting from decreases in exports to individual countries of this continent as follows: Sweden, from $41.7 to $25.3 million; the Netherlands, from $94.5 to $78.1 million; France, from $87.6 to $71.5 million; West Germany, from $127.7 to $113.0 million; United Kingdom, from $132.2 to $118.7 million; Spain, from $48.1 to $35.9 million; and Italy, from $74.8 to $63.6 million. Exports to South America fell from $192.3 to $168.9 million due largely to decreases in exports to Colombia, from $21.4 to $13.8 million; Brazil, from $27.5 to $20.2 million; and Chile, from $21.0 to $15.8 million.

Although exports to Asia decreased from $466.8 to $459.0 million, there were several notable counter-balancing changes: Exports to Pakistan fell from $41.9 to $28.9 million while exports to India and Iran increased, from $81.0 to $92.2 million and from $12.2 to $22.2 million, respectively. The decrease in exports to Australia and Oceania, from $76.7 to $70.2 million, was primarily due to the decrease in exports to Australia, from $65.1 to $58.0 million. Exports to Africa decreased slightly from $120.4 million in May to $120.2 million in June.

The increase in exports to Canada from $517.6 to $531.2 million (as noted above) was the primary cause of the increase in exports to North America, from $693.3 million in May to $710.2 million in June.

EXPLANATION OF STATISTICS

COVERAGE: Export statistics include government as well as nongovernment shipments to foreign countries. The export statistics, therefore, include Department of Defense Military Assistance Program--Grant-Aid shipments (for which separate figures are shown in the footnotes of this report), Mutual Security Program economic assistance shipments, and shipments of agricultural commodities under P.L. 480 (The Trade Development and Assistance Act of 1954, as amended) and related laws. (The separate information which is available on exports under P.L. 480 and related laws may be obtained from the Economic Research Service and the Foreign Agricultural Service of the Department of Agriculture.) Shipments to U.S. armed forces and diplomatic missions abroad for their own use are excluded from export statistics. U.S. trade with Puerto Rico and U.S. possessions is not included in this report, but the export trade of Puerto Rico with foreign countries is included as part of the U.S. export trade. Merchandise shipped in transit through the United States between foreign countries, not entered as imports, is not included in export statistics.

COUNTRY OF DESTINATION: Although the country of destination is defined as the country of ultimate destination or the country where the goods are to be consumed, further processed, or manufactured, the statistics do not always reflect this definition, as the shipper may not know the ultimate destination of the shipment. In such cases, the shipments are credited to the last country, as known to the exporter at the time of shipment from the United States, to which the goods are to be shipped in their present form.

VALUATION: The valuation definition used in the export statistics is the value at the seaport, border point, or airport of exportation. It is based on the selling price (or cost if not sold) and includes inland freight, insurance, and other charges to the port of exportation. Transportation and other costs beyond the U.S. port of exportation are excluded. None of the values have been adjusted for changes in price level.

RELIABILITY: The statistics presented in this report are based partly on sample data and therefore are subject to sampling variation that may cause them to differ somewhat from the results which would have been obtained from processing all export documents. For the figures shown in this report, the sampling variability can be ignored since the probable variability due to sampling is either less than $50,000 (the largest variation from rounding of figures) or less than a trivial percentage of the individual totals shown.

In addition to the effects of sampling variation, the data in this report are subject to errors from such sources as the carryover of data from month to month, errors in reporting or processing, the estimation of shipments valued under $100, and the omission of parcel post shipments valued under $50. Although the effect of such errors on the rounded totals in this report is probably small, the possibility of inaccuracy should be taken into account, particularly in using figures of relatively small magnitude.

Further information regarding coverage, valuation, compilation procedures and precision of export data is contained in the foreword of Reports FT 410 and FT 420. For complete statement, see foreword in Foreign Commerce and Navigation of the United States.

For sale by the Bureau of the Census, Washington, D.C. 20233. Price 10¢ per copy.
Annual subscription (FT 900, 930, 950, 970, 975, 985, and 986 combined) $5.00.

Zambia (formerly Northern Rhodesia), Southern Rhodesia, and Malawi	2.7	2.0	11.3	1.5	2.2	9.7

— Represents zero. Z Indicates less than $50,000. [a-e]Countries included in each area are identified with the same literal footnote as the area. [1]For definitions of countries as used in this report, refer to current edition of Schedule C, Classification of Country Designations Used in Compiling the U.S. Foreign Trade Statistics. [2]Country detail is not reported in the export statistics for Special Category commodities for security reasons. For certain areas, export totals include Special Categories, as shown at the beginning of the table. Export figures for other areas and countries represent total exports less exports of Special Category commodities. However, as a result of changes in security restrictions effective January 1965, without a corresponding change in restrictions applying to earlier periods, country totals for 1965 include data for exports of some commodities which as of this time cannot be allocated by country in the 1964 data. Because of this, and also because of changes in the content of Special Category commodities resulting from the January 1965 revisions of Schedule B, the 1965 country totals and Special Category totals in this table are not completely comparable with those for earlier periods. Also, the 1964 Special Category totals shown here differ from the corresponding 1964 totals shown in the January 1965 issue of Report FT 900-E. The adjustments made in that report for greater comparability with 1965, have not been made in the present table because of the restrictions which still remain on the distribution by country of 1964 data for all commodities on the 1964 Special Category list. A list of the 1965 Special Category commodities will be presented in the January 1965 issue of Report FT 410. [3]Includes $116.7 million of Department of Defense Military Assistance Program--Grant-Aid shipments ($52.7 million to Western Europe). [4]Includes $46.9 million of Department of Defense Military Assistance Program--Grant-Aid shipments ($7.7 million to Western Europe). [5]The Bureau of the Census does not have adequate information to measure the effect on the statistics of the dock strike at east coast and gulf ports, originally scheduled for December 20, 1964, and which eventually began January 11, 1965 and ended on different dates at individual ports, but in general, continued through the middle of February. [6]Includes $473.0 million of Department of Defense Military Assistance Program--Grant-Aid shipments ($139.6 million to Western Europe). [7]Includes $68.0 million of Department of Defense Military Assistance Program--Grant-Aid shipments ($38.1 million to Western Europe). [8]Includes $52.3 million of Department of Defense Military Assistance Program--Grant-Aid shipments ($24.1 million to Western Europe). [9]Includes $448.2 million of Department of Defense Military Assistance Program--Grant-Aid shipments ($197.5 million to Western Europe). [10]As explained in the April 1958 issue of Foreign Trade Statistics Notes, this is an arbitrary category established with April 1958 statistics to cover certain shipments to unidentified countries in Western Europe. [11]Country designation "Gaza Strip" established May 1965. Formerly included under the designation "Palestine" which become absolete May 1965. [12]Country designation established January 1965, includes areas formerly known as Tanganyika and Zanzibar. (The data shown for 1964 represent the combined export totals for these areas.)
